

Equine Assisted Learning

What is Equine Assisted Learning?

Experience Equine Assisted Learning, an educational journey driven by learners and horses.

Engage in purposeful activities designed to foster personal growth and skills development.

Our approach is proven effective, positive, and enriching, offering validated, hands-on experiences that boost self-confidence and empower individuals.

Why Horses?

Harness the transformative power of horses in our workshops. Renowned for fostering social, emotional, cognitive, and physical skills, horses provide invaluable feedback without judgment. Their honest and immediate responses empower individuals to listen, learn, and catalyse personal growth.

Discover the profound teaching qualities of horses in our workshops.

Here's Why They Excel:

- Empowering
- Inspiring
- Genuine feedback
- Horses seek strong leadership
- Majestic beings
- Herd community is similar to the human
- Herd dynamics mirror human relationships
- Enhance confidence and self-esteem
- Responsive and perceptive

Is this therapy?

Our program emphasises skill development for life progression, including effective communication techniques using both verbal and nonverbal cues. While our horse-assisted learning workshops facilitate enhanced interpersonal interaction, confidence building, and problem-solving skills, it is important to note that our approach is not therapy-oriented.

Unforgettable Learning

Horses + Objective-Based Exercises + Effective Facilitation + Experiential Learning =

POSITIVE CHANGE

Your organisation focuses on facilitating the transition of clients, students, or patients back into their daily lives. At the core of this transition are essential life skills, and we partner with you to ensure our objectives align with yours. Our horses serve as unparalleled instructors in mastering these skills, emphasising personal leadership and practical application.

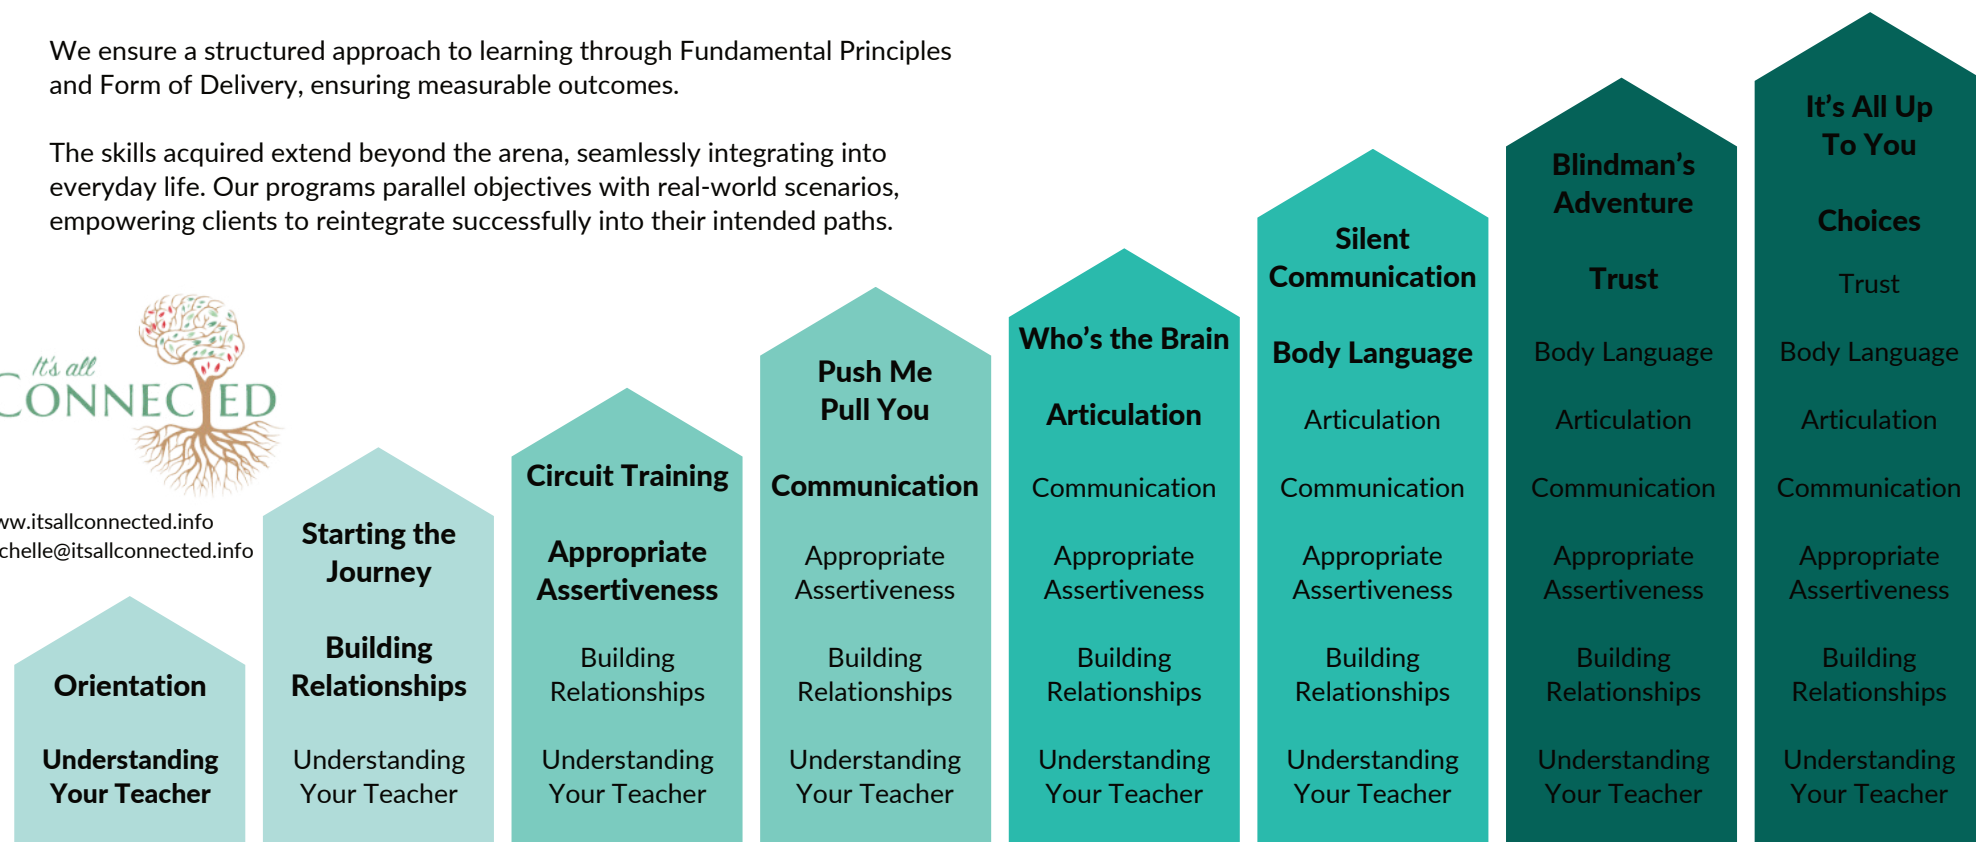

What the participants will learn is important; however, what they remember from this program is priceless!

We ensure a structured approach to learning through Fundamental Principles and Form of Delivery, ensuring measurable outcomes.

The skills acquired extend beyond the arena, seamlessly integrating into everyday life. Our programs parallel objectives with real-world scenarios, empowering clients to reintegrate successfully into their intended paths.

Engaging with horses leaves a lasting impression, far surpassing traditional classroom settings. Our Building Block Curriculum programs meticulously develop one skill per week, reinforcing and expanding on these foundations as participants progress. Led by our Certified EAL Facilitators and equine partners, attendees cultivate robust, enduring skills applicable to interpersonal interactions, decision-making, and navigating life's complexities.

Empower Your Team with Essential Tools and Strategies.

Our team-building programs equip participants with practical skills to navigate challenges, make informed decisions, and overcome obstacles. By enhancing communication and problem-solving abilities, teams become more cohesive, productive, and aligned with organisational objectives.

Experience tangible improvements in loyalty, productivity, and bottom-line results.

Harness the Power of Equine-Assisted Learning for Lasting Results.

Working with horses provides a transformative training experience, creating indelible memories that resonate long after the workshop ends. Unlike conventional classroom settings, this unique approach leaves a lasting impression, ensuring participants retain and apply newfound skills effectively. Witness immediate and sustainable improvements in teamwork, leadership, and overall organisational performance.

Get your team out of the office and build the skills needed for success!

Corporate and Team Building Workshops
